LONGEST WINDING LENGTH

WHAT WE BUILD

Filament winding machines and accessories for composite manufacturing, at our facility in Bachupal, Hyderabad.

- Gantry, low-bed and horizontal-bed winding machines
- Multi-spindle systems with up to 5 spindles
- Hydraulic extractors and mandrel rotators
- Ovens and winding accessories

Nature of business: manufacturer and exporter.

MANUFACTURING FACILITY

Bachupal, Hyderabad

Telangana, INDIA

MULTI-SPINDLE WINDING

Siemens controllers across the range

828D and 808D CNC Controllers; 2 and 4 axis configurations, with spindle speeds from 30 to 150 RPM.

Three machine families, one engineering focus

Gantry, low-bed and horizontal-bed systems,
configured by diameter, length and spindle
count.

01

Gantry

4 axis

AXES

1–5

10–2000 mm

MAX DIAMETER

1000–10000 mm

MAX LENGTH

02

Low Bed

2 spindles • 4 axis

Ø 10 - 1000 mm

Length 1000–15000mm

03

Horizontal Bed

1 spindle • 2 or 4 axis

Ø 500 - 5000 mm

Length 1000–15000 mm

**Supporting equipment
and accessories**

Hydraulic extractors • Mandrel rotators • Ovens
Winding accessories for filament winding lines.

Gantry Filament Winding Systems for Negligible Maintenance

4-axis overhead-carriage machines in 1, 2, 3 and 5-spindle configurations.

FEATURED CONFIGURATION FOR LPG, CNG & HYDROGEN CYLINDERS

4-axis · 2-spindle
RO pressure vessels

4 axis

3 spindles

SPINDLES

1000 mm

MAX DIAMETER

3500 mm

MAX LENGTH

SPINDLE SPEED	CARRIAGE SPEED	CROSS CARRIAGE	PAYOUT EYE	CONTROLLER	APPLICATION
100 RPM	60 m/min	40 m/min	50 RPM	SIEMENS 828D	RO pressure vessels

4-axis · 1-spindle
CNG tanks
Ø 1000 × 3500 mm
150 RPM spindle speed

Gantry range at a glance

Spindles	Max Ø (mm)	Max Length (mm)	Spindle (RPM)	Carriage (m/min)	Cross Carriage (m/min)	Payout Eye (RPM)
1	1000	10000	150	80	50	100
2	800	10000	100	80	50	100
3	600	8000	100	60	50	100
4	400	6000	100	50	50	100
5	300	4000	100	50	50	100

All gantry configurations: 4 axis, SIEMENS 828D controller.

APPLICATIONS
RO pressure vessels · CNG/LPG tanks · Bio Gas, Mileytery Applications

Multi-spindle Winding Systems

Precision solutions for high-quality composite manufacturing.

Low Bed, 4-Axis, 2-Spindle
RO Pressure Tube

Diameter
9 inch

Length
9000 mm

Low Bed, 4-Axis, 2-Spindle
Carbon Tubes

Diameter
50 mm

Length
2500 mm

Low Bed, 4-Axis, 2-Spindle
Insulators

Diameter
300 mm

Length
2500 mm

Specifications

Controller: SIEMENS 828D on all machines shown

Machine	Axis	Spindles	Max Ø (mm)	Max L (mm)	Spindle (RPM)	Carriage (m/min)	Cross (m/min)	Payout (RPM)
Low bed 8 inch	4	2	500	10000	100	50	40	50
Low bed 50 mm	4	2	500	10000	100	50	40	50
Low bed 300 mm	4	2	1200	2000	100	50	40	50

Horizontal-bed systems for pipes, tanks and silos

Made on WYNDERZ winding machines

Water & Purification

RO Pressure Vessels, Pressure Tubes and Pool Tanks. Solutions for purification systems that withstand harsh chemical environments.

Civil & Agricultural

FRP Irrigation Pipes. High-durability underground infrastructure immune to traditional soil corrosion.

Electrical Infrastructure

FRP Electrical Poles and Insulators. Non-conductive, low-maintenance components that drastically extend service life.

CNG & LPG

Composite gas storage and pressure-vessel solutions.

Hydrogen Gas

High-pressure composite storage solutions for emerging hydrogen applications.

Industrial Ducts

Lightweight, corrosion-resistant FRP ducting and industrial flow systems.

MASTS

Engineered composite masts and industrial components.

Defence Applications

Lightweight, high-strength composite solutions for demanding defence applications.

LPG Composite Cylinders

Advanced composite cylinders for LPG storage, offering safety, durability and lighter weight.
